The Rotax 1503 engine is an engineering masterpiece, the only 4 stroke engine specifically designed for watercraft use, the only watercraft engine with a closed loop cooling system. It is now available in several variations from the new 135hp found in the 2006 GTI range right up to the wopping 215hp supercharged intercooled monster found in the Seadoo RXP/RXT/GTX LTD and is also available in various Sea doo jet boats.

Well, that's what kept running through our minds as we tested Sea-Doo's new Sportster 4-TEC. The boat comes in at only 15 feet, 4 inches in length (which qualifies in some books as little), a large portion of our test boat's hull was covered in a bright yellow gelcoat (which qualifies as, uh, yellow), and the four-stroke jet drive certainly ...

It is a 1494cc Rotax three cylinder engine that was naturally aspirated generating 155 horsepower. With the 4-TEC comes a complete new engine management system incorporating a separate engine control unit (ECU) and MPem. The 4-TEC engine ultimately becomes the only engine platform in the future as the 2-strokes become phase out over the next 5 years.

Ok I just read that the engine is "full" when the oil level is in the middle of the bend on the dip stick... cwap! I have it up at the top of the bend, so maybe it didn't need that last 1/3 quart I put in there Saturday morning (I haven't started the engine since "topping" it off with that last 1/3 quart yesterday morning; last outing was Friday evening and it was too dark to check the oil ...
