policy analysis (FPA) lacks a grand
theory as to how domestic factors
influence foreign policy and under what
conditions these factors become more
important, a large body of work shows
that a state's foreign policy relies
heavily on unit-level characteristics, and
it is not completely shaped by systemic-
structural constraints and opportunities

International Relations. The literature on international relations (IR) argues that domestic politics is typically an important part of the explanation for states' foreign policies, and seeks to understand its influence more precisely. I argue that what constitutes a “domestic-political” explanation of a state's foreign policy choices has not been clearly elaborated.

Domestic politics influences foreign policy decisions and if a policy is not accepted at home it unlikely to succeed in the international context. Foreign Policy analysis needs to be multilevel and multifaceted in order to understand the complicated motivational factors and nature of foreign policy.
