Portable dehumidifiers can be moved from room to room while whole-house dehumidifiers are usually attached to your central heating and air conditioning system. Dehumidifiers are rated by how many pints of moisture they remove from the air in a 24-hour period. Choose the right size based on the rooms you need to treat and the amount of moisture ...

Dehumidifiers - Best Buy

A dehumidifier is a box that contains cold evaporator coils, warm condenser coils, a fan, and a reservoir or drain to catch water. The fan blows moisture-laden room air over the cold coils, where water condenses and drips into the pan or drain. The drier air then blows across the warm coils and back into the room. © Don Vandervort, HomeTips
