About Us. STEMscopes™, created by Accelerate Learning Inc., is an award-winning, research-based national leader in PreK-12 STEM curriculum. Used by over 4.5M students across all 50 states and internationally, STEMscopes provides comprehensive digital resources, supplemental print materials, and hands-on exploration kits that drive engagement and academic growth.

What is STEMscopes? | PreK-12 STEM Curriculum

STEMscopes has greatly helped me incorporate engaging, exploratory, and hands-on activities into my science lessons. Instead of "old school" teaching techniques that heavily utilize boring science books and comprehension questions, this curriculum provides teachers with fully prepared lessons that allow students to be more engaged and play active roles in their learning.

The Official STEMscopes Blog. Process Over Answer. Posted by Richard Kingham on July 31, 2020 ... The idea that the process of solving a mathematical problem is just as important as getting the right answer is the animating principle behind so-called "new math," formalized in Common Core. It's no secret that Common Core is controversial.
